Wahyudi Chrisdianto

Frontend Dev PHP | Javascript | UI/UX Design
Tangerang, Banten, Indonesia

Ringkasan

Hi, I'm Wahyudi Chrisdianto (Wahyu) I'm Tech Savvy, Really likes to learn new things, interested in challenges, and also Like and using Linux Ecosystems. Currently I'm Active Improve My Self and learning more about JS like ReactJS and NextJS

Pengalaman

Pilih Jurusan

1 tahun 5 bulan

Frontend Developer

Agustus 2022 - Present (5 bulan)

Work From Anywhere

Develop and maintain Pilih Jurusan web-based application with TDD agile method to provide online career consultation service that can be reached by students throughout Indonesia, based on Laravel with Docker.

Maintain, Develop, and Design web pages based on the previous tech stack to the new tech stack, new interfaces, and also improved UX to make sure everyone who uses our app has great experience no matter what device is used.

What I do:

- Maintain the Old Tech stack (by fixing minor bugs | Codeigniter3 & TailwindCSS)
- Improve web SEO
- More Improvement on Mobile Navigation Experience (set the design to be Mobile First oriented)
- Improve web Responsive, (web pages can run well on both mobile and desktop devices),
- Research, Design, and Maintain the web.
- helping and advising MBKM Intern FE & UI/UX Team

Frontend Developer

Februari 2022 - Juli 2022 (6 bulan)

Jakarta Selatan, Jakarta Raya, Indonesia

Improve UI and UX better with developing a new responsive dashboard that can improve our user experience when using the product, especially when the product is in use.

improvements I made :

- Improve web Responsive, (web pages can run well on both mobile and desktop devices),
- Improve Mobile Navigation Experience, (coz our users are mostly using mobile device),
- Research, Design, and Maintain the web.

Information Technology Intern (Fullstack Developer & UIX)

Agustus 2021 - Februari 2022 (7 bulan)

Jakarta Selatan, Jakarta Raya, Indonesia

Agile Innovation Internship Program x Kampus Merdeka Magang - Developing Web Based Application base on MVC PHP (Codeigniter) with tailwind CSS (Webpack). as a member of the IT Team at UI(Frontend) Division.

Pendidikan

STMIK Nusa Mandiri Jakarta

Gelar Sarjana, Manajemen Sistem Informasi · (2018 - 2022)
